Following is a comment which we clip from the Pine Bluff Daily Commercial, in regard to a series of lectures that the Rev. F. Pendleton is delivering on the subject of "Americanism."

Rev. W. H. Pendleton, last night at the Sixth Avenue Baptist church, presented to his large audience his second lecture on agnosticism. His field of course is very extended, but for the limited time he discussed the fine similes and striking illustrations of the faith of Christianity and utterly demolished the Ingalls theorist and free-thinker, and sent them shivering in this physial spray where there was neither port nor bay.

Yours truly,

Dean, at Denver, Col.

She was 26 years old. Commis-

FOURTEEN applications have been made to Senator Carlisle for the office of District Attorney for Kentucky.

CARLISLE CARPENTER, the great man, died suddenly in New York last Saturday morning. His death was caused by a tumor in the right lung.

Tra Mason & Ford Company, lessees of the Frankfort prison labor, are now indebted to the State over \$40,000, says Governor Brown in his message to the legislature.

Mr. D. Stewart Miller, representing a large English Company is preparing to open extensive coal mines at Danfield, point on the Owensboro & Falls of Rough railroad.

In Boyd county, Ky., the Republican Circuit Court clerk refused to remove the office to his Democratic successor. The master will be contested in the Court of Appeals.

A escape of a circus elephant at Crawfordsville, Ind., caused a stir there, as such had not been known since Judge Gresham announced that he would vote for Cleveland.

Lyon Pierce, of Owenebro, displayed remarkable nerve and calmness in repelling the insult offered his wife by James Kendall. But Kendall, poor fellow, was drunk, but for which he might probably be living to-day.

With the retirement of Judge Holt from the Court of Appeals, both the higher courts of the State become wholly Democratic. Judge Holt is the only straightforward Republican ever elected as such to the Supreme Bench in Kentucky.

The World's Fair managers have decided to request Dr. Oliver Wendell Holmes to furnish an appropriate ode for the opening of the great Exposition in May. The venerable poet has done much for literature in years past, and it is said, this is to be his final master-piece.

A meeting of representatives of the natural gas companies held at Indianapolis, Ind., last week, facts and figures were presented showing that the supply of natural gas in that State was rapidly waning, and unless some measures of protection were adopted, it would soon be exhausted.

It is estimated that the loss to the government of the United States by purchasing the slaves of the rebels in 1860-61, already reached the enormous sum of \$600,000,000. It is spoken of as "the greatest monumental financial blunder in human history," but the good (?) work still goes on and will continue until stopped by a Democratic Administration.

There has been some intimation that the election held last November in conformity to the new Constitution was void and that the officers elected under it had no title to their offices. This is not so, as many are saying, however, that the law is valid, and that Circuit Judges and all officers have a good title. A few contested cases would nevertheless bring about some interesting litigation.

With three Republicans party in 1860? The question is debatable and therefore we do not care to commit ourselves with doubt. The hard lines along which this party has marched recently, the many ups and downs it has had in handling public questions, and its threats and threats given it upon all sides, coupled with the fact of its overwhelming defeat last November leads many to believe that "she shot her hat wad."

It has been generally admitted all round that the next United States Senate would be Democratic. The attempt of the Republicans, however, to defeat the will of the people in one or two states may ultimatey reverse the result. This only goes to show that the will of the people at this time is not yet fixed. At this time Bear, Plant, Quay and other Republicans in the Senate are perfecting their organization to retain control of that body in the future at all hazards.

Another thing it remains for the Democrats to make some improvement in the Post-Office Department of the United States. The Republicans all along promised great reforms in this department, but failed in many instances to carry them out. The service is very good as it stands, but there is room for great improvement. The people in the rural districts, however, do not get paid enough. This is a great country, and as it develops and improves the people will naturally demand increased mail facilities.

We call especial attention to the good show made by the statement of the condition of the Peoples' Bank and the Bank of Hardinsburg. The Bank of Hardinsburg is a good bank, and the report of its clever cashier, Mr. H. Board, shows that it has immediately started on the road to success and is a solid institution. The Breckinridge Bank is as well founded, has been more than once examined and circled in one of the solid banking institutions of the State. The people of Breckinridge should congratulate themselves in that they have two such safe banks in which they can deposit their wealth and through which they can transact their business.
